| 4.   | Click the **View Results** link.  
   **View Results** |
| 5.   | The **Poll Results** page is used to view a summary of results for all questions in the Polls module. From this page, you can preview a question as it appears to poll respondents, view the results for a specific poll question, and view the comments submitted for a specific poll question.  
   In this example, you will view the results for a poll question and then view the comments submitted by respondents. |
| 6.   | Click the **Results** link.  
   **Results** |
| 7.   | Use the **Response Results** page to view the results for a specific poll question. |
| 8.   | Click the **Return** button.  
   **Return** |
| 9.   | Click the **Comments** link.  
   **Comments** |
| 10.  | Use the **Respondent Comments** page to view comments that respondents have submitted for a specific poll question. |
| 11.  | Click the **Polls** link.  
   **Polls** |
| 12.  | You have completed viewing poll results in the Polls module of a collaborative workspace.  
   **End of Procedure.** |
